

9) MOMENT TO MOMENT

“The world is the oyster - the pearl to be won.”

“Become as a child to enter the Kingdom” – Jesus.

We are no longer children so we are required to learn our way back...
This is the work to be done.

The sum of thinking is all as one **thought**.

Thought resisted **eternity** causing a spark of energy.

The spark is Planck's constant and its measure is: **$6.62607004 \times 10^{-34}$ m² kg/seconds.**

This is unlimited power for the least possible **time**.

Eternity inside out for the least time is the **Quantum**.

Planck's constant is the measure the quantum.

The universe is the secondary result of quantum repetition: primary to secondary; thought to thinking - a quantum of energy accumulating time. (Ohm's Law)

Thought lives by thinking – a stationary wheel barreling into time - abusing **free energy** to build its domain.

“Therefore, the earth will mourn and the heavens above will grow dark. I have spoken. I have planned, and I will not relent or turn back.” Jeremiah 4:28.

Energy automatically aggregates hierarchically; thought's all-seeing eye is everywhere at once. (king of the castle)

Everything is disappearing at the speed of gravity, including thought.

All returning to life ad-infinitum or until resistance is reconciled.

Thought directs all, one frame at a time.

We go out to gather back but can't see the forest for the trees.

This is the challenge!

“I know not whence I came, nor whither I go, nor who I am.”

- Erwin Schrodinger.
