

ANATHEMA

"Eternity is the source of energy." - Nikola Tesla.

Life is a twist to be resolved - an ETERNAL twist for we cannot be cut off from who we are.

The energy of the twist is subject to the rules of energy: the positive and negative are inextricably bound and as the twist vibrates to become the universe they remain intimately connected.

We spiral into separations that engage like kind for protection, but, nonetheless, all is disappearing with the twist.

This most astonishing and revolutionary fact was given quantity by **Max Planck** in 1900.

Planck's mathematics established the energy of the twist to be: **$6.62607004 \times 10^{-34}$ m² kg seconds.**

Planck received a Nobel prize, but then, in due course, his work was reconstrued to fit the classical mode.

The eternal source remains anathema to this day.

“Even Planck tried to make it fit: “My unavailing attempts to somehow reintegrate the action quantum into classical theory extended over several years and caused me much trouble.” Several years later, other physicists like Rayleigh, Jeans, and Lorentz set Planck’s constant to zero in order to align with classical physics, but Planck knew well that this constant had a precise nonzero value. “So much the worse for the facts if they don’t fit.”

~ Alexander Wilhelm von Brill - held a chair at the University of Tübingen, where Max Planck was among his students.

Truth means revolution to the status quo.

The ‘status quo’ is the **sum of who we think we are** in every following moment.
