

COGS IN A WHEEL

“The task is... not so much to see what no one has yet seen; but to think what nobody has yet thought, about that which everybody sees.” ~ Erwin Schrodinger.

Planck's constant is the utter collapse of the universe to the resistance that caused it.

The resistance is cause before effect and is silent.

ETERNITY resisted ETERNITY.

This is THOUGHT.

“There is no thinker apart from thought; thought has made the thinker.” – Krishnamurthi.

Thought comes alive through the secondary issue produced by its own thinking.

The universe is a cyclic to linear phenomenon - a generator.

- Thought is everywhere at once.

We are cogs in the wheel of Thought, yet Thought is never more than the sum of who we think we are.

“As careful attention shows, thought itself is an actual process of movement.” – David Bohm.
