

INTO THE ABYSS

No **one** has a right not to know who they are.

One may wonder why ETERNITY resisted ETERNITY.

Undoubtedly, we will know the answer when we solve the resistance that caused it.

We are this resistance and whereas resistance may be solved ETERNITY cannot.

ETERNITY is without reference whereas resistance is energy - a duality - a positive/negative held apart by the resistance, and therefore solvable in terms of reference.

The primal resistance is a point of view to be resolved yet resolution does not resolve to eternity - it takes us to a logical leap of faith - a bungee jump to reality.

ETERNITY does not exist in energy - the positive acts on its behalf: it sits on the right hand and its complementary opposite on the left.

This is not a separation; it is a twist to be resolved.

One must be connected in order to jump.
