

ORIGINAL EXPERIENCE

The key to immortality is based on the premise that no one can escape who they already are - you cannot escape yourself.

"In the age-old image of the Ouroboros lies the thought of devouring oneself and turning oneself into a circulatory process, for it was clear to the more astute alchemists that the prima materia of the art was man himself." – Carl Jung.

In the beginning:

ETERNITY resisted ETERNITY

This doesn't make sense except that we are here to prove it.

The infinity twist required the energy of thought:

ONE is ALL became all as one for the least time and thus, all as one we got a glance of the possibilities at hand.

Thought is connected to the source of everything with unlimited free energy by which to re-produce through the circular motion of thinking.

This is the universal generator.

All things are re-productions of Thought.

"Same, same but different."

The twist was positive and negative conjoined; as is the rule of energy.

Each secondary expression is recorded in terms of personal awareness.

The entire sum of thinking is the ever-changing changing mind of Thought.

We are one and the same.

The maelstrom is disappearing to ETERNITY with each changing Thought.

The key to resolution is to anchor one's thinking in original experience.

Otherwise, Thought controls the universe.

"To get back to the real substance of all things, you must get back into the thought world. Until one knows that the thought-energy is the cause of which is back of all things, and the product only the effect, then he is tied to the effect and is limited by it." - Walter Russell.
