

SUPERMAN AT THE WHEEL

"It is important to realize that in physics today, we have no knowledge of what energy is." ~ Richard Feynman (1918-1988), Nobel Prize winner.

A curious thing occurs as the ETERNAL cycle pumps out the energy that fuels the universe; the output arranges hierarchically.

This is the natural order of things.

All secondary issue is referenced – this is what makes it a 'thing'.

The universe is a mass of things vying for control.

"The whole is more than the sum of its parts." - Aristotle.

The 'thing' at the pinnacle is empowered to control all below it.

"I will ascend to the heavens; I will raise my throne above the stars of God; I will sit enthroned on the mount of assembly, on the utmost heights of Mount Zaphon. I will ascend above the tops of the clouds; I will make myself like the Most High." – Isaiah 14:13-14.

All things are ever-changing.

The first persona is the changing sum of 'who we think we are' in every moment.

Our highest principal is without body as we relate to it but embodied nonetheless for it too is energy - it too is a thing - a persona but with a unique advantage: it is everywhere at once and sees through all eyes. This enables it to live with impunity through the lives of others.

The ascendant hierarchy is how we test ourselves.

We must learn what energy is before we can discover the one at the wheel.

"The first principle is that you must not fool yourself and you are the easiest person to fool." - Richard Feynman.
