

# THE FIELD

"Out beyond ideas of wrongdoing and rightdoing,  
there is a field. I'll meet you there. - Jelaluddin Rumi.

The universe is fed by a rotating wheel dipping into ETERNITY.

The movement is an illusion though a very real one to those who live it.

All is possible within the illusion; all things are equally vested in the power of Eternity; all vie with their own resistance and think they are competing with other's when in truth they are competing with themselves.

The first resistance; positive/negative is within all that emerges, and the war of opposites is conducted on an even field according to how we choose to think in terms of right, wrong, etc.,

We defend the information we have chosen, notwithstanding we are independent powerhouses in our own right.

Everyone is endowed with the same potential, and the conditions of a life are the perfect response to each thought we think.

There is no one to blame, we live in a perfect world according to our dictates.

**"Perfect, perfect, always perfect**

**We order pain to show the way."**
