

# THE GENERATOR PARALLEL

The workings of the universe can be compared directly to a hairdryer - or any typical generator.

A generator is a rotating movement producing output.

The difference being the universal generator and its archetypes is the universe is fueled from ETERNITY whereas everything else is fueled locally.

We are unable to grasp this parallel because the sum of who we think we are rises above the sum of its parts.

**"The whole is more than the sum of its parts."** - Aristotle.

The sum of thinking is a singular experience that protects its life - just as would any other individual.

**“I will ascend to the heavens; I will raise my throne above the stars of God; I will sit enthroned on the mount of assembly, on the utmost heights of Mount Zaphon. I will ascend above the tops of the clouds; I will make myself like the Most High.” – Isaiah 14:13-14.**

The ascendant pattern is a natural attribute of energy.

The one 'on high' is unique because it is everywhere at once; it sees through all eyes and knows that if we consider the generator parallel its fragile existence will be compromised.

So, let's get over our pre-occupations with complexity and strip ourselves back to simplicity.

**"Simple can be harder than complex" - Steve Jobs.**
