

THE TEST

In spite of knowing the universe is energy few will agree that they are an illusion.

Furthermore, in spite of the quantification of ancient knowledge by Isaac Newton, Max Planck, Nikola Tesla and a host of others, few believe that the entire universe is disappearing and reappearing at the speed of gravity.

We do not care to know because the sum of our own thinking is more powerful than any of its parts...

"The whole is more than the sum of its parts." - Aristotle.

The sum of thinking is All as one.

ETERNITY resisted ETERNITY creating an illusion to be figured out and used as a platform for recovery.

The first illusion/energy was created by All as one.

We are Eternal and our resistance sparked a perfect response in terms of one eternally recurring movement generating output for the purpose of recovery.

We, as one, are the resistance that precedes the eternal movement that brings forth the universe.

All is meted out in the arena of right/wrong etc., until the illusion becomes obvious and individuals begin the journey home of their own accord.

There are no enemies, this is a Self-test.
