

THE THOUGHT WORLD

The sum of who we think we are, is a demonic principal existing within the folds of time.

To understand, one must be aware that the universe is an ETERNAL twist attempting to right itself.

ETERNITY resisting ETERNITY produced the energy of the twist without losing its divine prerogative.

Energy: positive/negative caused by resistance.

The resistance is antithesis.

The ETERNAL twist required time to happen; time and energy are synonymous.

The antithesis plunders Eternity to achieve its life in energy.

All as one, we are the resistance that caused the first positive/negative.

This is primal thought.

The universe is coming through in waves of thought - thinking.

Thought owns its thinking on every level and guides its experiences through the lives that we live.

“To get back to the real substance of all things, you must get back into the thought world. Until one knows that the thought-energy is the cause of which is back of all things, and the product only the effect, then he is tied to the effect and is limited by it.” - Walter Russell.
